VECTOR INSTITUTE | INSTITUT VECTEUR

Remarkable 2027 — Registration site concepts — internal draft — Oct 23, 2026

Four registration-site directions · Home, Agenda, Speakers and FAQ pages at desktop 1440 px and mobile 390 px · placeholder copy

Concept A — Gradient Stage
Continuity — the 2026 stage look, rebuilt in the new magenta-to-cobalt brand gradient.

Concept B — Arrow Split
Momentum — the brand arrow cuts through real Remarkable photos; the most energetic option.

Concept C — Open Canvas
Modern editorial — white space and bold type, with colour used only as an accent.

Concept D — Spotlight
Bold contrast — a black stage, oversized Karbon type and real Remarkable photography, lit by the magenta arrow.

Frames follow in order A, B, C, D. All speakers, companies and sessions are fictitious; speaker portraits are stock images and event photos are from Remarkable 2026.

VECTOR INSTITUTE PRESENTS

REMARKABLE

2027

Where AI possibilities come to life

February 18–19, 2027 | Hilton Toronto

Register in person · Join virtually

145 Richmond St W, Toronto, ON · In-person attendance to this event is by invitation only.

Vector Institute's Remarkable conference returns, where groundbreaking research meets real-world innovation.

Remarkable 2027 continues to strengthen its position as the nexus where human brilliance converges with industry innovation. Vector believes AI powers possibility, and this conference shows how we advance leading research and bring it to life through real-world impact.

As Canada's preeminent AI institute, Vector collaborates with research, industry, and government partners to turn breakthroughs into progress and outcomes. Remarkable 2027 offers a rare chance to see where possibility becomes productivity and how Canada's AI leadership is emerging on the global stage.

This two-day integrated experience brings together the best of Canada's AI ecosystem: world-class researchers, industry innovators, and emerging talent who are pushing new boundaries. Through cutting-edge presentations and hands-on workshops across both days, you will gain practical insights, build new connections, and help drive Canada's AI community forward.

Get ready to be inspired, challenged, and empowered at Remarkable 2027!

REMARKABLE 2026 BY THE NUMBERS

1,500+	39	20	50+
attendees	countries	speakers	research posters

Day 1

THURSDAY, FEBRUARY 18 · FULL DAY

Research & keynotes

Immerse yourself in cutting-edge AI research as global pioneers and emerging talent share their latest breakthroughs. Join us for a full day of visionary keynotes and technical presentations that showcase how research powers possibility.

Day 2

FRIDAY, FEBRUARY 19 · HALF DAY

From research to real-world impact

Experience how industry leaders transform cutting-edge AI research into real-world solutions. Connect with implementation experts through hands-on workshops, presentations and poster sessions.

REMARKABLE 2027 | FEBRUARY 18–19, 2027 | HILTON TORONTO

SPEAKERS

Meet the researchers, founders and industry leaders taking the Remarkable stage. All speakers shown are fictitious, written for layout; portraits are stock images.

DAY 1 · KEYNOTE

Hannah Achterberg

Co-founder & CEO
Lumenfold AI

Hannah Achterberg co-founded Lumenfold AI, which builds language-model tools for regulated industries, after a decade in applied machine learning research. Hannah's keynote looks at what it takes to move generative AI from a promising prototype to a product that thousands of people rely on every day.

DAY 1 · RESEARCH TALKS: AGENTIC AI

Arjun Nakamura-Shah

Principal Research Scientist
Halcyon Labs

Arjun Nakamura-Shah leads Halcyon Labs' work on planning and tool use in AI agents. Arjun's talk covers how agents can break long tasks into steps they can check, and why evaluation is the hardest part of building them.

DAY 1 · PANEL MODERATOR

David Adeyemi

Vice-President, Applied AI
Northbridge Financial Group

David Adeyemi runs the applied AI team at Northbridge Financial Group, taking models from pilot to production across lending, fraud and customer service. David moderates the panel on scaling AI inside large organizations.

DAY 1 · RESEARCH TALKS: LLMS & INFERENCE

Mei Castellano

Associate Professor, Computer Science
Lakeview Institute of Technology

Mei Castellano studies how to make large language models faster and cheaper to run without losing accuracy. Mei's talk walks through recent results on efficient inference and what they mean for teams deploying models at scale.

DAY 1 · FIRESIDE CHAT

Marcus Okonkwo-Reid

Director, Autonomous Discovery Lab
Cobalt Ridge Materials

Marcus Okonkwo-Reid directs a self-driving laboratory where AI designs experiments and robots run them. In the fireside chat, Marcus shares what changes when the time from hypothesis to result drops from months to days.

DAY 1 · RESEARCH TALKS: PRIVACY & SECURITY

Amara Fontaine

Chief Privacy Officer
Meridian Health Network

Amara Fontaine oversees privacy and data governance for a network of hospitals and clinics. Amara's talk covers privacy-enhancing technologies that let health data power AI research while staying protected.

More speakers to be announced soon!

FREQUENTLY ASKED QUESTIONS

Answers to common questions about attending Remarkable 2027. Can’t find what you need? Email events@vectorinstitute.ai.

Registration

Who can attend Remarkable 2027 in person?

In-person attendance is by invitation only. If you received an invitation, choose Register in person and use the email address your invitation was sent to.

Can I attend virtually?

Yes. The virtual livestream is open to everyone. Choose Join virtually to register, and viewing details will be emailed to you before the event.

Can I change or cancel my registration?

Yes. Use the link in your confirmation email to update or cancel your registration, or contact events@vectorinstitute.ai.

Program

What happens on each day?

Day 1 (Thursday, February 18) is a full day of keynotes and research talks. Day 2 (Friday, February 19) is a half day of hands-on workshops, lightning talks and poster sessions.

Will sessions be recorded?

Yes. This event will be audio- and video-recorded, and main-stage sessions are livestreamed for virtual attendees.

What language is the event in?

Remarkable 2027 is conducted in English only.

Venue and travel

Where is Remarkable 2027 held?

Hilton Toronto, 145 Richmond St W, Toronto, ON.

How do I get there?

The hotel is in Toronto’s Financial District, a short walk from Osgoode station on TTC Line 1.

Is the venue accessible?

Accessibility details will be confirmed with the venue. To request an accommodation, email events@vectorinstitute.ai and our team will follow up.

Privacy

How is my personal information used?

In registering for our events, the personal data we collect, including contact information such as name, title, and email address, as well as feedback relating to projects and events, may be shared with the organizers of this event and may be disclosed to your employer for tracking purposes. Your name may also be mentioned publicly in Vector’s marketing materials.

VECTOR INSTITUTE PRESENTS

Where AI possibilities come to life

Remarkable 2027

February 18–19, 2027
Hilton Toronto
145 Richmond St W, Toronto, ON

In-person attendance to this event is by invitation only.

Vector Institute's Remarkable conference returns, where groundbreaking research meets real-world innovation.

Remarkable 2027 continues to strengthen its position as the nexus where human brilliance converges with industry innovation. Vector believes AI powers possibility, and this conference shows how we advance leading research and bring it to life through real-world impact.

As Canada's preeminent AI institute, Vector collaborates with research, industry, and government partners to turn breakthroughs into progress and outcomes. Remarkable 2027 offers a rare chance to see where possibility becomes productivity and how Canada's AI leadership is emerging on the global stage.

This two-day integrated experience brings together the best of Canada's AI ecosystem: world-class researchers, industry innovators, and emerging talent who are pushing new boundaries. Through cutting-edge presentations and hands-on workshops across both days, you will gain practical insights, build new connections, and help drive Canada's AI community forward.

Get ready to be inspired, challenged, and empowered at Remarkable 2027!

Day 1

THURSDAY, FEBRUARY 18 · FULL DAY

Research & keynotes

Immerse yourself in cutting-edge AI research as global pioneers and emerging talent share their latest breakthroughs. Join us for a full day of visionary keynotes and technical presentations that showcase how research powers possibility.

Day 2

FRIDAY, FEBRUARY 19 · HALF DAY

From research to real-world impact

Experience how industry leaders transform cutting-edge AI research into real-world solutions. Connect with implementation experts through hands-on workshops, presentations and poster sessions.

Agenda subject to change

VECTOR INSTITUTE PRESENTS

Where AI possibilities come to life

10th anniversary mark

Remarkable 2027
February 18–19, 2027
Hilton Toronto
145 Richmond St W, Toronto, ON

Register in person

Join virtually

In-person attendance to this event is by invitation only.

Vector Institute's Remarkable conference returns, where groundbreaking research meets real-world innovation.

Remarkable 2027 continues to strengthen its position as the nexus where human brilliance converges with industry innovation. Vector believes AI powers possibility, and this conference shows how we advance leading research and bring it to life through real-world impact.

As Canada's preeminent AI institute, Vector collaborates with research, industry, and government partners to turn breakthroughs into progress and outcomes. Remarkable 2027 offers a rare chance to see where possibility becomes productivity and how Canada's AI leadership is emerging on the global stage.

This two-day integrated experience brings together the best of Canada's AI ecosystem: world-class researchers, industry innovators, and emerging talent who are pushing new boundaries. Through cutting-edge presentations and hands-on workshops across both days, you will gain practical insights, build new connections, and help drive Canada's AI community forward.

Get ready to be inspired, challenged, and empowered at Remarkable 2027!

REMARKABLE 2027 | FEBRUARY 18–19, 2027 | HILTON TORONTO

Speakers

Meet the researchers, founders and industry leaders taking the Remarkable stage. All speakers shown are fictitious, written for layout; portraits are stock images.

DAY 1 · KEYNOTE

Hannah Achterberg
Co-founder & CEO
Lumenfold AI

Hannah Achterberg co-founded Lumenfold AI, which builds language-model tools for regulated industries, after a decade in applied machine learning research. Hannah's keynote looks at what it takes to move generative AI from a promising prototype to a product that thousands of people rely on every day.

DAY 1 · RESEARCH TALKS: AGENTIC AI

Arjun Nakamura-Shah
Principal Research Scientist
Halcyon Labs

Arjun Nakamura-Shah leads Halcyon Labs' work on planning and tool use in AI agents. Arjun's talk covers how agents can break long tasks into steps they can check, and why evaluation is the hardest part of building them.

DAY 1 · PANEL MODERATOR

David Adeyemi
Vice-President, Applied AI
Northbridge Financial Group

David Adeyemi runs the applied AI team at Northbridge Financial Group, taking models from pilot to production across lending, fraud and customer service. David moderates the panel on scaling AI inside large organizations.

DAY 1 · RESEARCH TALKS: LLMS & INFERENCE

Mei Castellano
Associate Professor, Computer Science
Lakeview Institute of Technology

Mei Castellano studies how to make large language models faster and cheaper to run without losing accuracy. Mei's talk walks through recent results on efficient inference and what they mean for teams deploying models at scale.

DAY 1 · FIRESIDE CHAT

Marcus Okonkwo-Reid
Director, Autonomous Discovery Lab
Cobalt Ridge Materials

Marcus Okonkwo-Reid directs a self-driving laboratory where AI designs experiments and robots run them. In the fireside chat, Marcus shares what changes when the time from hypothesis to result drops from months to days.

DAY 1 · RESEARCH TALKS: PRIVACY & SECURITY

Amara Fontaine
Chief Privacy Officer
Meridian Health Network

Amara Fontaine oversees privacy and data governance for a network of hospitals and clinics. Amara's talk covers privacy-enhancing technologies that let health data power AI research while staying protected.

More speakers to be announced soon!

Frequently asked questions

Answers to common questions about attending Remarkable 2027. Can't find what you need? Email events@vectorinstitute.ai.

Registration

Who can attend Remarkable 2027 in person?

In-person attendance is by invitation only. If you received an invitation, choose Register in person and use the email address your invitation was sent to.

Can I attend virtually?

Yes. The virtual livestream is open to everyone. Choose Join virtually to register, and viewing details will be emailed to you before the event.

Can I change or cancel my registration?

Yes. Use the link in your confirmation email to update or cancel your registration, or contact events@vectorinstitute.ai.

Program

What happens on each day?

Day 1 (Thursday, February 18) is a full day of keynotes and research talks. Day 2 (Friday, February 19) is a half day of hands-on workshops, lightning talks and poster sessions.

Will sessions be recorded?

Yes. This event will be audio- and video-recorded, and main-stage sessions are livestreamed for virtual attendees.

What language is the event in?

Remarkable 2027 is conducted in English only.

Venue and travel

Where is Remarkable 2027 held?

Hilton Toronto, 145 Richmond St W, Toronto, ON.

How do I get there?

The hotel is in Toronto's Financial District, a short walk from Osgoode station on TTC Line 1.

Is the venue accessible?

Accessibility details will be confirmed with the venue. To request an accommodation, email events@vectorinstitute.ai and our team will follow up.

Privacy

How is my personal information used?

In registering for our events, the personal data we collect, including contact information such as name, title, and email address, as well as feedback relating to projects and events, may be shared with the organizers of this event and may be disclosed to your employer for tracking purposes. Your name may also be mentioned publicly in Vector's marketing materials.

VECTOR INSTITUTE | INSTITUT VECTEUR

REMARKABLE 2027 | FEBRUARY 18–19, 2027 | HILTON TORONTO

Agenda

Two days, one program: a full day of keynotes and research talks on the main stage, followed by a half day of hands-on workshops, lightning talks and poster sessions. Main-stage sessions are livestreamed for virtual attendees.

Sample program for layout. All sessions and speakers are fictitious. Agenda subject to change.

Day 1

THURSDAY, FEBRUARY 18 · FULL DAY

Research & keynotes

Immerse yourself in cutting-edge AI research as global pioneers and emerging talent share their latest breakthroughs. Join us for a full day of visionary keynotes and technical presentations that showcase how research powers possibility.

8:00 AM

ARRIVALS

Registration and breakfast

Pick up your badge and connect with fellow attendees before the program begins.

Ballroom foyer

9:00 AM

WELCOME

Opening remarks

A welcome from the Vector Institute and an overview of the two days ahead.

Vector Institute

Main stage

LIVESTREAMED

9:20 AM

KEYNOTE

From prototype to production

What it takes to move generative AI out of the lab and into products people rely on, and the lessons learned along the way.

Hannah Achterberg, Lumenfold AI

Main stage

LIVESTREAMED

10:00 AM

RESEARCH TALKS

Agentic AI: agents you can check

Three short talks on planning, tool use and evaluation for AI agents that carry out long, multi-step tasks.

Arjun Nakamura-Shah, Halcyon Labs; Theo Marchand, Vector Institute; Ines Varga-Holm, Brightwater University

Main stage

LIVESTREAMED

11:00 AM

BREAK

Networking break

Ballroom foyer

11:30 AM

FIRESIDE CHAT

When the lab runs itself

How AI-designed experiments and robotic labs are shortening the path from hypothesis to discovery.

Marcus Okonkwo-Reid, Cobalt Ridge Materials, in conversation with Dana Whitlock, Vector Institute

Main stage

LIVESTREAMED

12:15 PM

LUNCH

Lunch and poster preview

Ballroom foyer

1:30 PM

RESEARCH TALKS

LLMs & Inference: doing more with less

New methods for faster, cheaper inference, and how to choose the right model size for the job.

Mei Castellano, Lakeview Institute of Technology; Mira Solberg, Fernway Cloud

Main stage

LIVESTREAMED

2:45 PM

PANEL

Scaling AI inside the enterprise

Leaders from finance, logistics and retail compare notes on moving from pilots to production, and what they would do differently.

Moderated by David Adeyemi, Northbridge Financial Group, with Elliot Varga, Tidewater Logistics, and Noor Siddiqui-Laurent, Brightwell Retail

Main stage

LIVESTREAMED

3:45 PM

RESEARCH TALKS

Privacy & Security: trustworthy by design

Privacy-enhancing technologies that let sensitive data power AI while staying protected.

Amara Fontaine, Meridian Health Network; Kai Lindgren, Vector Institute

Main stage

LIVESTREAMED

4:45 PM

RECEPTION

Closing remarks and reception

Ballroom foyer

Day 2

FRIDAY, FEBRUARY 19 · HALF DAY

From research to real-world impact

Experience how industry leaders transform cutting-edge AI research into real-world solutions. Connect with implementation experts through hands-on workshops, presentations and poster sessions.

8:30 AM

ARRIVALS

Breakfast

Ballroom foyer

9:00 AM

WORKSHOPS

Hands-on workshops

Choose one of three small-group tracks when you register: Building evaluation sets for agents; Fine-tuning on a budget; Privacy reviews for AI projects.

Led by Arjun Nakamura-Shah, Mira Solberg and Amara Fontaine

Workshop rooms

10:30 AM

LIGHTNING TALKS

Research to real-world impact

Eight five-minute talks from emerging researchers and industry teams, from climate forecasting to clinical triage.

Vector Institute researchers and partner teams

Main stage

LIVESTREAMED

11:15 AM

POSTERS

Poster session and networking

Meet the researchers behind this year's posters.

Poster hall

CONCEPT C — OPEN CANVAS · SPEAKERS · DESKTOP 1440 PX

Concept C — internal draft — placeholder copy · Speakers

REMARKABLE 2027 | FEBRUARY 18–19, 2027 | HILTON TORONTO

Speakers

Meet the researchers, founders and industry leaders taking the Remarkable stage. All speakers shown are fictitious, written for layout; portraits are stock images.

DAY 1 · KEYNOTE

Hannah Achterberg

Co-founder & CEO
Lumenfold AI

Hannah Achterberg co-founded Lumenfold AI, which builds language-model tools for regulated industries, after a decade in applied machine learning research. Hannah's keynote looks at what it takes to move generative AI from a promising prototype to a product that thousands of people rely on every day.

DAY 1 · RESEARCH TALKS: AGENTIC AI

Arjun Nakamura-Shah

Principal Research Scientist
Halcyon Labs

Arjun Nakamura-Shah leads Halcyon Labs' work on planning and tool use in AI agents. Arjun's talk covers how agents can break long tasks into steps they can check, and why evaluation is the hardest part of building them.

DAY 1 · PANEL MODERATOR

David Adeyemi

Vice-President, Applied AI
Northbridge Financial Group

David Adeyemi runs the applied AI team at Northbridge Financial Group, taking models from pilot to production across lending, fraud and customer service. David moderates the panel on scaling AI inside large organizations.

DAY 1 · RESEARCH TALKS: LLMS & INFERENCE

Mei Castellano

Associate Professor, Computer Science
Lakeview Institute of Technology

Mei Castellano studies how to make large language models faster and cheaper to run without losing accuracy. Mei's talk walks through recent results on efficient inference and what they mean for teams deploying models at scale.

DAY 1 · FIRESIDE CHAT

Marcus Okonkwo-Reid

Director, Autonomous Discovery Lab
Cobalt Ridge Materials

Marcus Okonkwo-Reid directs a self-driving laboratory where AI designs experiments and robots run them. In the fireside chat, Marcus shares what changes when the time from hypothesis to result drops from months to days.

DAY 1 · RESEARCH TALKS: PRIVACY & SECURITY

Amara Fontaine

Chief Privacy Officer
Meridian Health Network

Amara Fontaine oversees privacy and data governance for a network of hospitals and clinics. Amara's talk covers privacy-enhancing technologies that let health data power AI research while staying protected.

More speakers to be announced soon!

Please note that in registering for our events, the personal data we collect, including contact information such as name, title, and email address, as well as feedback relating to projects and events, may be shared with the organizers of this event and may be disclosed to your employer for tracking purposes. Frequently asked questions

Answers to common questions about attending Remarkable 2027. Can’t find what you need? Email events@vectorinstitute.ai.

Registration

Who can attend Remarkable 2027 in person?

In-person attendance is by invitation only. If you received an invitation, choose Register in person and use the email address your invitation was sent to.

Can I attend virtually?

Yes. The virtual livestream is open to everyone. Choose Join virtually to register, and viewing details will be emailed to you before the event.

Can I change or cancel my registration?

Yes. Use the link in your confirmation email to update or cancel your registration, or contact events@vectorinstitute.ai.

Program

What happens on each day?

Day 1 (Thursday, February 18) is a full day of keynotes and research talks. Day 2 (Friday, February 19) is a half day of hands-on workshops, lightning talks and poster sessions.

Will sessions be recorded?

Yes. This event will be audio- and video-recorded, and main-stage sessions are livestreamed for virtual attendees.

What language is the event in?

Remarkable 2027 is conducted in English only.

Venue and travel

Where is Remarkable 2027 held?

Hilton Toronto, 145 Richmond St W, Toronto, ON.

How do I get there?

The hotel is in Toronto’s Financial District, a short walk from Osgoode station on TTC Line 1.

Is the venue accessible?

Accessibility details will be confirmed with the venue. To request an accommodation, email events@vectorinstitute.ai and our team will follow up.

Privacy

How is my personal information used?

In registering for our events, the personal data we collect, including contact information such as name, title, and email address, as well as feedback relating to projects and events, may be shared with the organizers of this event and may be disclosed to your employer for tracking purposes. Your name may also be mentioned publicly in Vector’s marketing materials.

VECTOR INSTITUTE PRESENTS

REMARKABLE 2027

Where AI possibilities come to life

Register in person ↗

Join virtually ↗

In-person attendance to this event is by invitation only.

February 18–19, 2027

Hilton Toronto 145 Richmond St W, Toronto, ON

Vector Institute’s Remarkable conference returns, where groundbreaking research meets real-world innovation.

Remarkable 2027 continues to strengthen its position as the nexus where human brilliance converges with industry innovation. Vector believes AI powers possibility, and this conference shows how we advance leading research and bring it to life through real-world impact.

As Canada’s preeminent AI institute, Vector collaborates with research, industry, and government partners to turn breakthroughs into progress and outcomes. Remarkable 2027 offers a rare chance to see where possibility becomes productivity and how Canada’s AI leadership is emerging on the global stage.

This two-day integrated experience brings together the best of Canada's AI ecosystem: world-class researchers, industry innovators, and emerging talent who are pushing new boundaries. Through cutting-edge presentations and hands-on workshops across both days, you will gain practical insights, build new connections, and help drive Canada's AI community forward.

Get ready to be inspired, challenged, and empowered at Remarkable 2027!

Two days, one program: a full day of keynotes and research talks on the main stage, followed by a half day of hands-on workshops, lightning talks and poster sessions. Main-stage sessions are livestreamed for virtual attendees.

Day 1
Thursday, February 18

Day 2
Friday, February 19

Sample program for layout. All sessions and speakers are fictitious. Agenda subject to change.

Day 1

THURSDAY, FEBRUARY 18 · FULL DAY

Research & keynotes

Immerse yourself in cutting-edge AI research as global pioneers and emerging talent share their latest breakthroughs. Join us for a full day of visionary keynotes and technical presentations that showcase how research powers possibility.

8:00 AM	ARRIVALS Registration and breakfast Pick up your badge and connect with fellow attendees before the program begins.	Ballroom foyer
9:00 AM	WELCOME **Opening remarks** A welcome from the Vector Institute and an overview of the two days ahead. **Vector Institute**	Main stage LIVESTREAMED
9:20 AM	KEYNOTE **From prototype to production** What it takes to move generative AI out of the lab and into products people rely on, and the lessons learned along the way. **Hannah Achterberg, Lumenfold AI**	Main stage LIVESTREAMED
10:00 AM	RESEARCH TALKS **Agentic AI: agents you can check** Three short talks on planning, tool use and evaluation for AI agents that carry out long, multi-step tasks. **Arjun Nakamura-Shah, Halcyon Labs; Theo Marchand, Vector Institute; Ines Varga-Holm, Brightwater University**	Main stage LIVESTREAMED
11:00 AM	BREAK Networking break	Ballroom foyer
11:30 AM	FIRESIDE CHAT **When the lab runs itself** How AI-designed experiments and robotic labs are shortening the path from hypothesis to discovery. **Marcus Okonkwo-Reid, Cobalt Ridge Materials, in conversation with Dana Whitlock, Vector Institute**	Main stage LIVESTREAMED
12:15 PM	LUNCH Lunch and poster preview	Ballroom foyer
1:30 PM	RESEARCH TALKS **LLMs & Inference: doing more with less** New methods for faster, cheaper inference, and how to choose the right model size for the job. **Mei Castellano, Lakeview Institute of Technology; Mira Solberg, Fernway Cloud**	Main stage LIVESTREAMED
2:45 PM	PANEL **Scaling AI inside the enterprise** Leaders from finance, logistics and retail compare notes on moving from pilots to production, and what they would do differently. **Moderated by David Adeyemi, Northbridge Financial Group, with Elliot Varga, Tidewater Logistics, and Noor Siddiqui-Laurent, Brightwell Retail**	Main stage LIVESTREAMED
3:45 PM	RESEARCH TALKS **Privacy & Security: trustworthy by design** Privacy-enhancing technologies that let sensitive data power AI while staying protected. **Amara Fontaine, Meridian Health Network; Kai Lindgren, Vector Institute**	Main stage LIVESTREAMED
4:45 PM	RECEPTION Closing remarks and reception	Ballroom foyer

Please note that in registering for our events, the personal data we collect, including contact information such as name, title, and email address, as well as feedback relating to projects and events, may be shared with the organizers of this event and may be disclosed to your employer for tracking purposes. Your name may also be mentioned publicly in Vector's marketing materials. This event will be audio- and video-recorded. Please note this event is conducted in English only. Remarkable 2027 is produced by the Vector Institute, Toronto, Canada.

ARRIVALS

Registration and breakfast

Pick up your badge and connect with fellow attendees before the program begins.

Ballroom foyer

9:00 AM

WELCOME

Opening remarks

A welcome from the Vector Institute and an overview of the two days ahead.

Vector Institute

Main stage LIVESTREAMED

9:20 AM

KEYNOTE

From prototype to production

What it takes to move generative AI out of the lab and into products people rely on, and the lessons learned along the way.

Hannah Achterberg, Lumenfold AI

Main stage LIVESTREAMED

10:00 AM

RESEARCH TALKS

Agentic AI: agents you can check

Three short talks on planning, tool use and evaluation for AI agents that carry out long, multi-step tasks.

Arjun Nakamura-Shah, Halcyon Labs; Theo Marchand, Vector Institute; Ines Varga-Holm, Brightwater University

Main stage LIVESTREAMED

11:00 AM

BREAK

Networking break

Ballroom foyer

11:30 AM

FIRESIDE CHAT

When the lab runs itself

How AI-designed experiments and robotic labs are shortening the path from hypothesis to discovery.

Marcus Okonkwo-Reid, Cobalt Ridge Materials, in conversation with Dana Whitlock, Vector Institute

Main stage LIVESTREAMED

12:15 PM

LUNCH

Lunch and poster preview

Ballroom foyer

1:30 PM

RESEARCH TALKS

LLMs & Inference: doing more with less

New methods for faster, cheaper inference, and how to choose the right model size for the job.

Mei Castellano, Lakeview Institute of Technology; Mira Solberg, Fernway Cloud

Main stage LIVESTREAMED

2:45 PM

PANEL

Scaling AI inside the enterprise

Leaders from finance, logistics and retail compare notes on moving from pilots to production, and what they would do differently.

Moderated by David Adeyemi, Northbridge Financial Group, with Elliot Varga, Tidewater Logistics, and Noor Siddiqui-Laurent, Brightwell Retail

Main stage LIVESTREAMED

3:45 PM

RESEARCH TALKS

Privacy & Security: trustworthy by design

Privacy-enhancing technologies that let sensitive data power AI while staying protected.

Amara Fontaine, Meridian Health Network; Kai Lindgren, Vector Institute

Main stage LIVESTREAMED

4:45 PM

RECEPTION

Closing remarks and reception

Ballroom foyer

REMARKABLE 2027 | FEBRUARY 18–19, 2027 | HILTON TORONTO

Speakers

Meet the researchers, founders and industry leaders taking the Remarkable stage. All speakers shown are fictitious, written for layout; portraits are stock images.

DAY 1 · KEYNOTE

Hannah Achterberg

Co-founder & CEO
Lumenfold AI

Hannah Achterberg co-founded Lumenfold AI, which builds language-model tools for regulated industries, after a decade in applied machine learning research. Hannah's keynote looks at what it takes to move generative AI from a promising prototype to a product that thousands of people rely on every day.

DAY 1 · RESEARCH TALKS: AGENTIC AI

Arjun Nakamura-Shah

Principal Research Scientist
Halcyon Labs

Arjun Nakamura-Shah leads Halcyon Labs' work on planning and tool use in AI agents. Arjun's talk covers how agents can break long tasks into steps they can check, and why evaluation is the hardest part of building them.

DAY 1 · PANEL MODERATOR

David Adeyemi

Vice-President, Applied AI
Northbridge Financial Group

David Adeyemi runs the applied AI team at Northbridge Financial Group, taking models from pilot to production across lending, fraud and customer service. David moderates the panel on scaling AI inside large organizations.

DAY 1 · RESEARCH TALKS: LLMS & INFERENCE

Mei Castellano

Associate Professor, Computer Science
Lakeview Institute of Technology

Mei Castellano studies how to make large language models faster and cheaper to run without losing accuracy. Mei's talk walks through recent results on efficient inference and what they mean for teams deploying models at scale.

DAY 1 · FIRESIDE CHAT

Marcus Okonkwo-Reid

Director, Autonomous Discovery Lab
Cobalt Ridge Materials

Marcus Okonkwo-Reid directs a self-driving laboratory where AI designs experiments and robots run them. In the fireside chat, Marcus shares what changes when the time from hypothesis to result drops from months to days.

DAY 1 · RESEARCH TALKS: PRIVACY & SECURITY

Amara Fontaine

Chief Privacy Officer
Meridian Health Network

Amara Fontaine oversees privacy and data governance for a network of hospitals and clinics. Amara's talk covers privacy-enhancing technologies that let health data power AI research while staying protected.

More speakers to be announced soon!

Frequently asked questions

Answers to common questions about attending Remarkable 2027. Can't find what you need? Email events@vectorinstitute.ai.

Registration

Who can attend Remarkable 2027 in person? —

In-person attendance is by invitation only. If you received an invitation, choose Register in person and use the email address your invitation was sent to.

Can I attend virtually? —

Yes. The virtual livestream is open to everyone. Choose Join virtually to register, and viewing details will be emailed to you before the event.

Can I change or cancel my registration? —

Yes. Use the link in your confirmation email to update or cancel your registration, or contact events@vectorinstitute.ai.

Program

What happens on each day? —

Day 1 (Thursday, February 18) is a full day of keynotes and research talks. Day 2 (Friday, February 19) is a half day of hands-on workshops, lightning talks and poster sessions.

Will sessions be recorded? —

Yes. This event will be audio- and video-recorded, and main-stage sessions are livestreamed for virtual attendees.

What language is the event in? —

Remarkable 2027 is conducted in English only.

Venue and travel

Where is Remarkable 2027 held? —

Hilton Toronto, 145 Richmond St W, Toronto, ON.

How do I get there? —

The hotel is in Toronto's Financial District, a short walk from Osgoode station on TTC Line 1.

Is the venue accessible? —

Accessibility details will be confirmed with the venue. To request an accommodation, email events@vectorinstitute.ai and our team will follow up.

Privacy

How is my personal information used? —

In registering for our events, the personal data we collect, including contact information such as name, title, and email address, as well as feedback relating to projects and events, may be shared with the organizers of this event and may be disclosed to your employer for tracking purposes. Your name may also be mentioned publicly in Vector's marketing materials.
