

Common frame · all three pages share this scale and position · crosshair = elevator core, identical on every page

Level 3 — Gallery

Trading Floor

The immersive projection theatre

SAME FRAME, EVERY PAGE

All three pages are drawn at one scale, in one position, north up. A feature at the same spot on two pages is directly above / below itself. The pink crosshair marks the passenger-elevator shaft — the core that connects every level.

WHY THE FLOORS DON'T STACK

Levels 1–2 fill the 234 Bay footprint. Level 3 sits mostly over 222 Bay next door — only the service core overlaps the floors below. The Trading Floor hall is double-height, so nothing sits above it; dashed outlines show the other levels' extents.
